

My Dearest Tania Naskar,

As I sit down to write this letter, words seem both abundant and yet insufficient to express the depth of my feelings for you. Every thought of you lights up my heart like the first rays of dawn gracing the earth, warm and gentle.

Your smile is the melody that plays in my heart, your laughter the symphony that brightens my days. In your presence, time seems to pause, giving me moments I wish to hold onto forever. You are not just a part of my life; you are the very essence of it.

I find myself enchanted by the sparkle in your eyes, inspired by your kindness, and comforted by your warmth. With you, every moment feels like a beautiful story etched in the sands of time.

I wanted to share these emotions with you, hoping they touch your heart as you have touched mine. My feelings for you grow deeper with each passing day, and I cherish every memory we've created together.

With all my love,

Kunal
